# INTRODUCING YOU TO NARDAL SAFETY

NARDAL SAFETY offers a **one-stop solution** for equipment and instruments from trusted and recognized brands. We provide our customers with industry expertise and knowledge of the products we sell.

NARDAL SAFETY is part of the PROSAFE Group family which has been involved in the **supply and distribution of Personal Protective Equipment (PPE)** for almost 30 years.

The Group has become one of the **largest safety equipment providers in the region** since it started in 1995.

Through our international network of suppliers and industry collaborators, we constantly keep ourselves updated on the various new approaches to risk assessments, the **highest international standards** and the relevant strategies deployed in the workplace to address the identified risks.

To keep our promise of making workplaces safer, we continually improve our team's professionalism to a very high standard at NARDAL SAFETY.

Finally, we consider our customers as partners and are committed to **offering professional advice and sharing know-how**, through technical support and educational services on how to select the most appropriate protective solution.

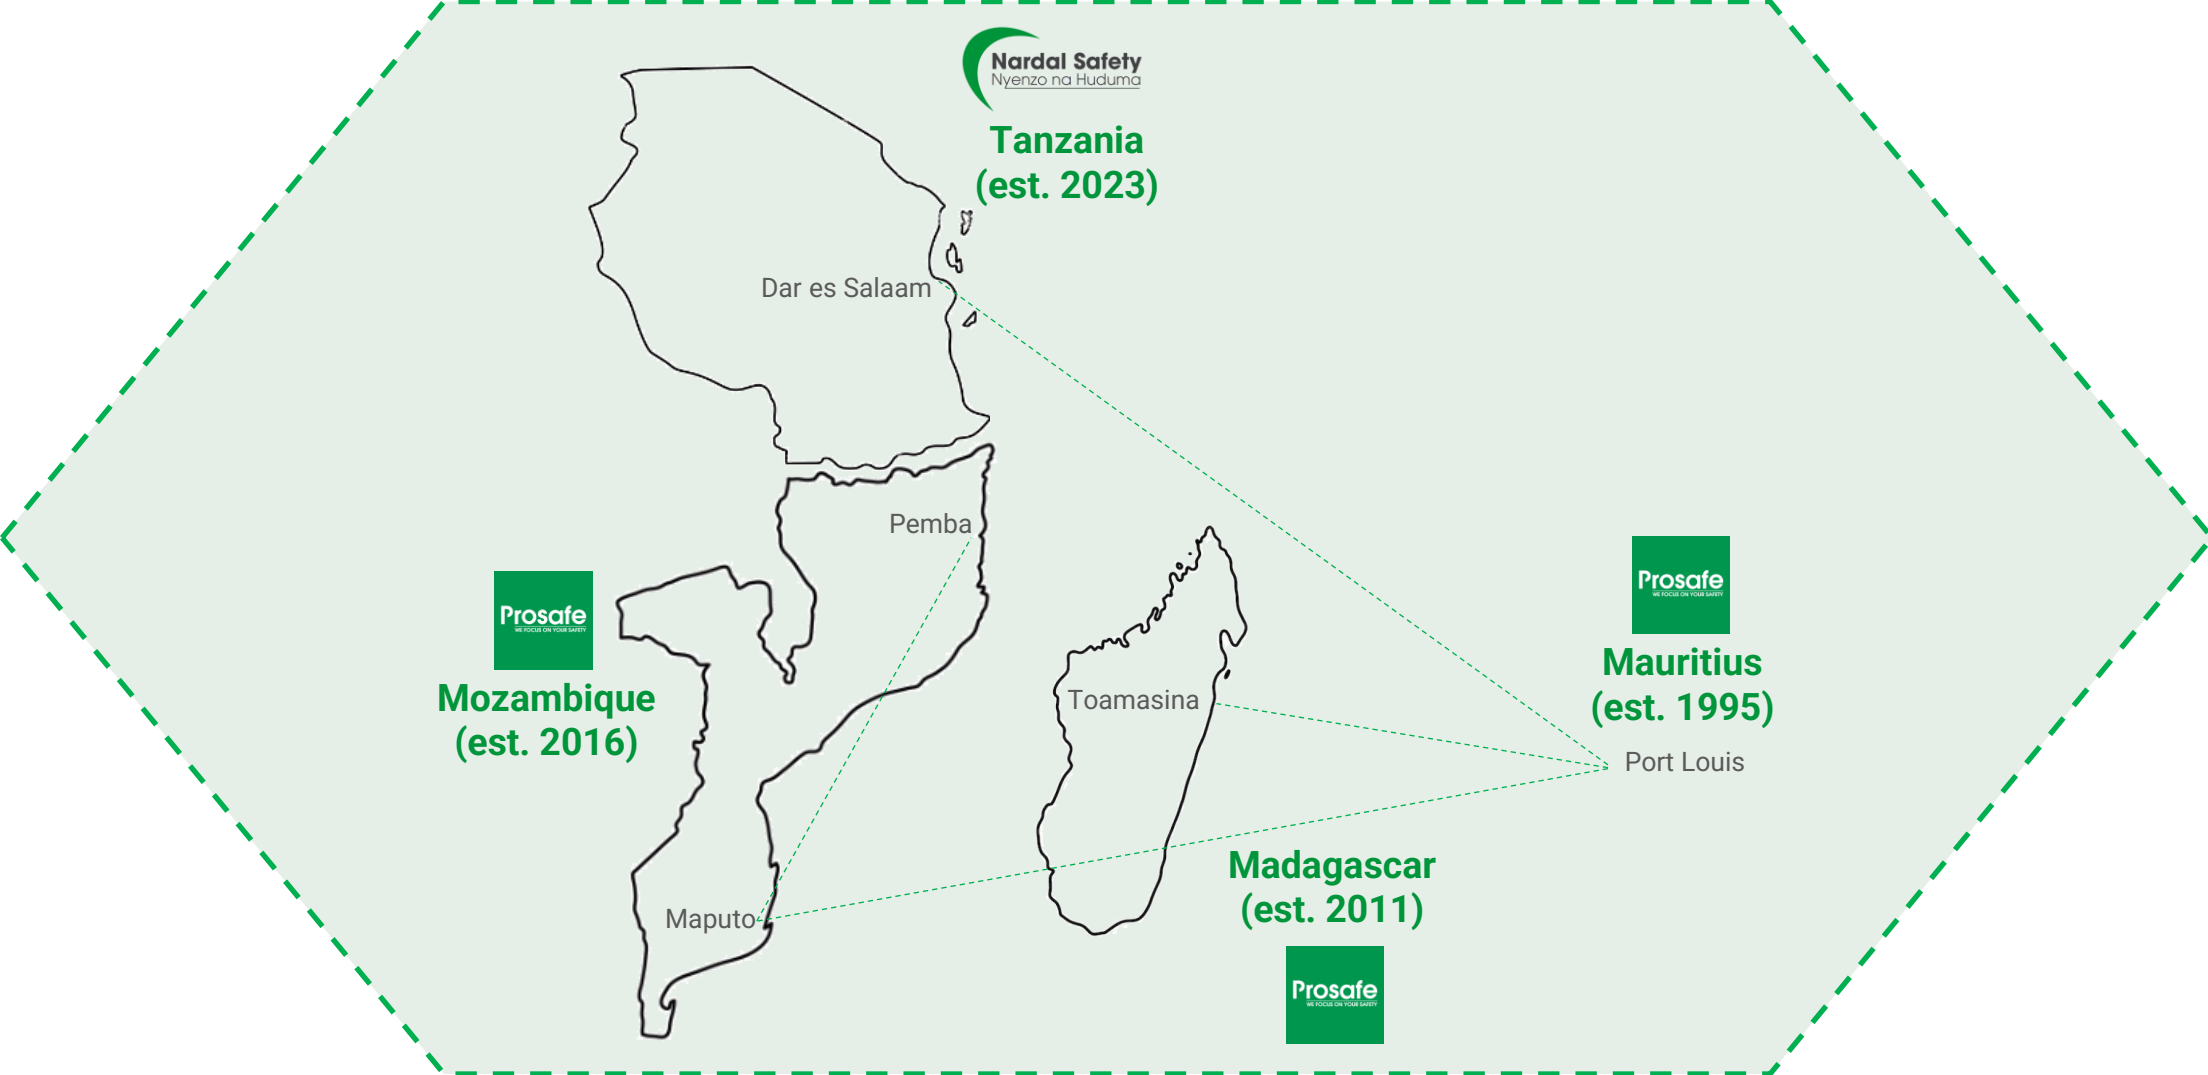

# GROUP ACHIEVEMENTS

- A private business that has been in operation for almost **30** years.
- **40** employees in 4 countries: a company contributing to employment opportunities.
- Continuous growth reaching USD **+5** million in 2022.
- **1,200** customers across the region.
- More than **1,500** referenced products.
- Over **15,000** portable gas detectors sold.
- **ZERO** accident on contractual projects.
- The very **1<sup>st</sup>** safety provider for the Mozambican major LNG project (ENI-Exxon JV).

# THE AREA WE SERVE

# MISSION, VISION, VALUES

## MISSION

- Going above and beyond by assisting our clients in protecting their people, their neighbour community, and their environment.

## VISION

- To be the leading provider of premium occupational hygiene, health, safety and environmental equipment, instruments, and consulting services in Tanzania.

## CORE VALUES

**CUSTOMER FOCUSED**

**RELIABILITY**

**INTEGRITY**

**PASSION**

# PRODUCT LINE

NARDAL SAFETY carries a large selection of safety equipment that are 100% suited to all our clients' needs. The complete range includes from the most basic safety devices to the highly specialised custom solutions, providing quality and accurate products. Our solutions include, but are not limited to:

## GAS DETECTION

### MicroClip Series

**Features:**  
World's most popular multi-gas portable detector, delivering long runtime and reliability — plus small size, low cost and the easiest user experience.

### Max XT II

**Features:**  
Reliably monitors up to four hazards and combines straightforward one-button operation with our robust, motorized pump for intelligent, remote sampling, ideal for confined spaces.

### MultiRAE Lite

**Features:**  
This multi-gas monitor provides versatile, customizable detection and monitoring of up to six gases, available in both pumped and diffused air models.

### QRAE 3

**Features:**  
Pumped or diffusion gas monitor that provides continuous exposure monitoring of O<sub>2</sub>, combustibles, and toxic gases, including H<sub>2</sub>S, CO, SO<sub>2</sub>, and HCN.

### Ventis MX4

**Features:**

- 4-gas monitor designed to be rugged yet lightweight and easy to wear.
- Available in diffusion or can be used with a slide-on pump.

### Breathalyzer Alcoscan

**Features:**  
State of the art high speed testing breathalyzer. It is the instrument of choice for entry point security screening.

# PRODUCT LINE

## MONITORING INSTRUMENTS

### Sound Level Meter Optimus+

**Features:**

- Ideal for industrial & environmental noise assessment.
- Periodic LAeq and Ln values, LMax and Lmin.
- Easy to use, measures all parameters simultaneously.
- Choose a Class 1 or Class 2 model.
- VoiceTag audio notes and audio recording.
- Available with tonal noise detection, 1:1 octaves or 1:3 octaves, etc.

### Sampling Pump VAPex/Apex2

**Features:**

- The VAPex/Apex2 range of sampling pumps has class beating performance and all models are Intrinsically Safe for use in flammable atmospheres.
- Get connected with the Airwave® mobile software and easily send data directly to your laptop.

### Vibration Meter HAVex

**Features:**

- Make all the measurements necessary for Hand Arm Vibration risk assessment.
- The HAVex Tri-Axial Hand Arm Vibration Meter has been specifically designed for Hand Arm Vibration Exposure Measurements.

### Dust Monitor DustTrak

**Features:**

- Multi-channel, data-logging, laser photometer for real-time aerosol readings.
- Portable design allows you to measure dust, fumes, mists and smoke and is suitable for engineering control evaluations.
- Simultaneously measure size-segregated mass fraction concentrations corresponding to PM1, PM2.5, respirable, PM10 and PM Total size fractions.

# PRODUCT LINE

## MONITORING INSTRUMENTS

### Heat Stress Monitor QUESTemp

Utilizes WBGT sensing technology; the standard for heat stress management.

#### Features:

- Dry bulb, wet bulb, and globe temperature.
- WBGT (indoor/outdoor index).
- Heat index (humidex).

### Monitoring Station Guardian2

#### Features:

- Guardian2 is designed to help you remain compliant with site emission levels, using remote monitoring and reporting of noise, dust, ground vibration and VOCs.
- Powered by AC, solar or battery, the Guardian2 is ideal for any location.

### Indoor Air Quality Meter IAQ-Calc

#### Features:

- Outstanding instruments for investigating and monitoring indoor air quality.
- Measures and data logs multiple parameters such as CO<sub>2</sub>, temperature, and humidity.
- It calculate dew point, wet bulb temperature and percent of outside air.
- Ergonomic, overmolded case design.

### Air Velocity Meter VelociCalc

#### Features:

- Simple to operate.
- Measurement range: 0-30 m/s.
- Simultaneously measure temperature and velocity.
- Displays up to three measurements simultaneously.
- Calculates volumetric flow and actual/Norms velocity.

# PRODUCT LINE

## RESPIRATORY PROTECTION

### Respirator Fit Tester PortaCount

**Features:**

- Quantitative respirator fit tester that supports respiratory protection programs throughout the entire fit test process; from training and mask selection through compliance.
- Provides a consistent and objective testing experience across all respirator types, including all N95 filtering facepieces.

### SCBA Spiromatic 90U

**Norms:** PPE 2016/425, EN137 Type 2, EN 144.

**Features:**

- Open back plate for good ventilation and low weight.
- Easy to handle and adjustable cylinder strap.
- Carrying handle integrated in backplate.
- Well-proven and robust pneumatics.
- Mask and breathing valve in a compact design.
- Material: Kevlar webbing, heat resistant polymer.

### Half Mask 4000 Series

**Features:**

- Half masks with bayonet connection.
- It can be disassembled in less than a minute making cleaning and maintenance much easier.
- New front mask with quick attachment/release system and sliding elastics, which allow you to remove and lower the half mask without removing the head harness.

### Full Face Mask 5000 Series

**Features:**

- Full face masks with bayonet connection.
- Available in thermoplastic rubber or silicone.
- The face piece has been redesigned to better fit the facial profile and is easily replaceable.
- It is made of soft TPE, which is non-deformable.
- An aluminum layer, inside the breathing unit of the device, enables the transmission of vocal sound.

# PRODUCT LINE

## FALL PROTECTION & CONFINED SPACE

### Horizontal Lifeline

#### Features:

- Norms: BS EN-795-C 2012, TS 16415:2013
- 5-year Warranty
- Integrated drop and tension indicator.
- Can be used by 3 people.
- Installation will comply with the regulations on safety at height and the requirements of NF EN 795:2012.

### Tripod – 7 Feet Maxi Height

Trip with 7 feet maxi height for access in confined space.

#### Features:

- With two mounted pulleys at the head of the Tripod in the extension of the main leg for passing a cable.
- Having two auxiliary eye bolts as attachment points.
- Aluminum alloy cast head, legs in aluminium.
- Steel support-shoes provided with rubber sole to increase friction and impart more stability.

### Scaffolder Harness

#### Features:

Equipped with 1 dorsal D-Ring & 1 sternal D-Ring for fall arrest system. Adjustable shoulder and thigh straps. Buckles on sternal strap with springs.

### Retractable Fall Arrester Olympe

#### Features:

Retractable Fall Arrester with aluminium casing and galvanized steel wire rope length 6 metres.

### Beam Anchor Grab'n'Slide

#### Features:

Designed for beams whose width ranges from 100 to 350 mm. EN795:2012 Type B, ATEX Directive 2014/34/EU.

# PRODUCT LINE

## HAND PROTECTION

### 344 Economic Mechanical Gloves

**Features:**

- Norms: EN 388 (2121X).
- Water-resistant coating.
- Rough surface gripenables optimum dexterity.
- Elastic wrist cuff.
- Ultimate comfort.

### AP800 Antistatic Mechanical Gloves

**Features:**

- Safe usage in ATEX zone.
- Microfiber polyester static dissipative yarn.
- Embossed microporous foam nitril palm dip.
- Touchscreen compatible.
- Abrasion-resistant.

### XC500 E/A5 Cut Resistant Gloves

**Features:**

- Provide cut and abrasion resistance , without sacrificing dexterity.
- Microporous nitrile coating disperses oil to increase grip.
- HPPE reinforced.

### CS710 Chemical Resistant Gloves

**Features:**

- High level of chemical resistance.
- Designed with grip wave pattern to ensure a secure grip.
- Flocked liner makes the glove easy to remove.
- Eco Best technology; biodegradable glove.

### 732 Chemical Resistant Gloves

**Features:**

- 100% Nitrile provides protection against a broad range of oils, solvents and chemicals.
- Flocked liner makes the glove easy to remove.

### 6781R Heat Resistant Gloves

**Features:**

- Fully-coated neoprene.
- Rough grip.
- Cotton liner.
- Offer resistance from chemicals and abrasion.
- Insulated: 250°C.

## MISCELLANEOUS PRODUCTS

### Master Lock Lockout/Tagout & Solutions

As the world's largest padlock manufacturer, Master Lock offers a wide range of security solutions, including padlocks, lockout hasps & cables, electrical lockout devices, mechanical lockout devices, lockout tagout kits, lockout stations, boxes and cabinets, lockout tagout identification labels, etc.

### Airstar Lighting Balloon – Sirocco Range

Thanks to our lighting balloons dedicated to Safety lighting, it is possible to light up an area of 22,500 m<sup>2</sup> in just two minutes! Using Sirocco lighting balloons is the promise of diffused and homogeneous 360 ° light, without shadows and glare free. Of all sizes and powers, Airstar provides a lighting solution that enables to work efficiently in a safe environment and helps to prevent accidents.

### Safety Footwear

Our goal is to provide shoes forefront in terms of technology and comfort, capable of providing workers with full protection from all the dangers present in the various work situations.

### Zoll Defibrillators

All Zoll AEDs support AHA and ERC guidelines for high-quality CPR. AED Plus sets the benchmark for design, dependability, durability, and performance.

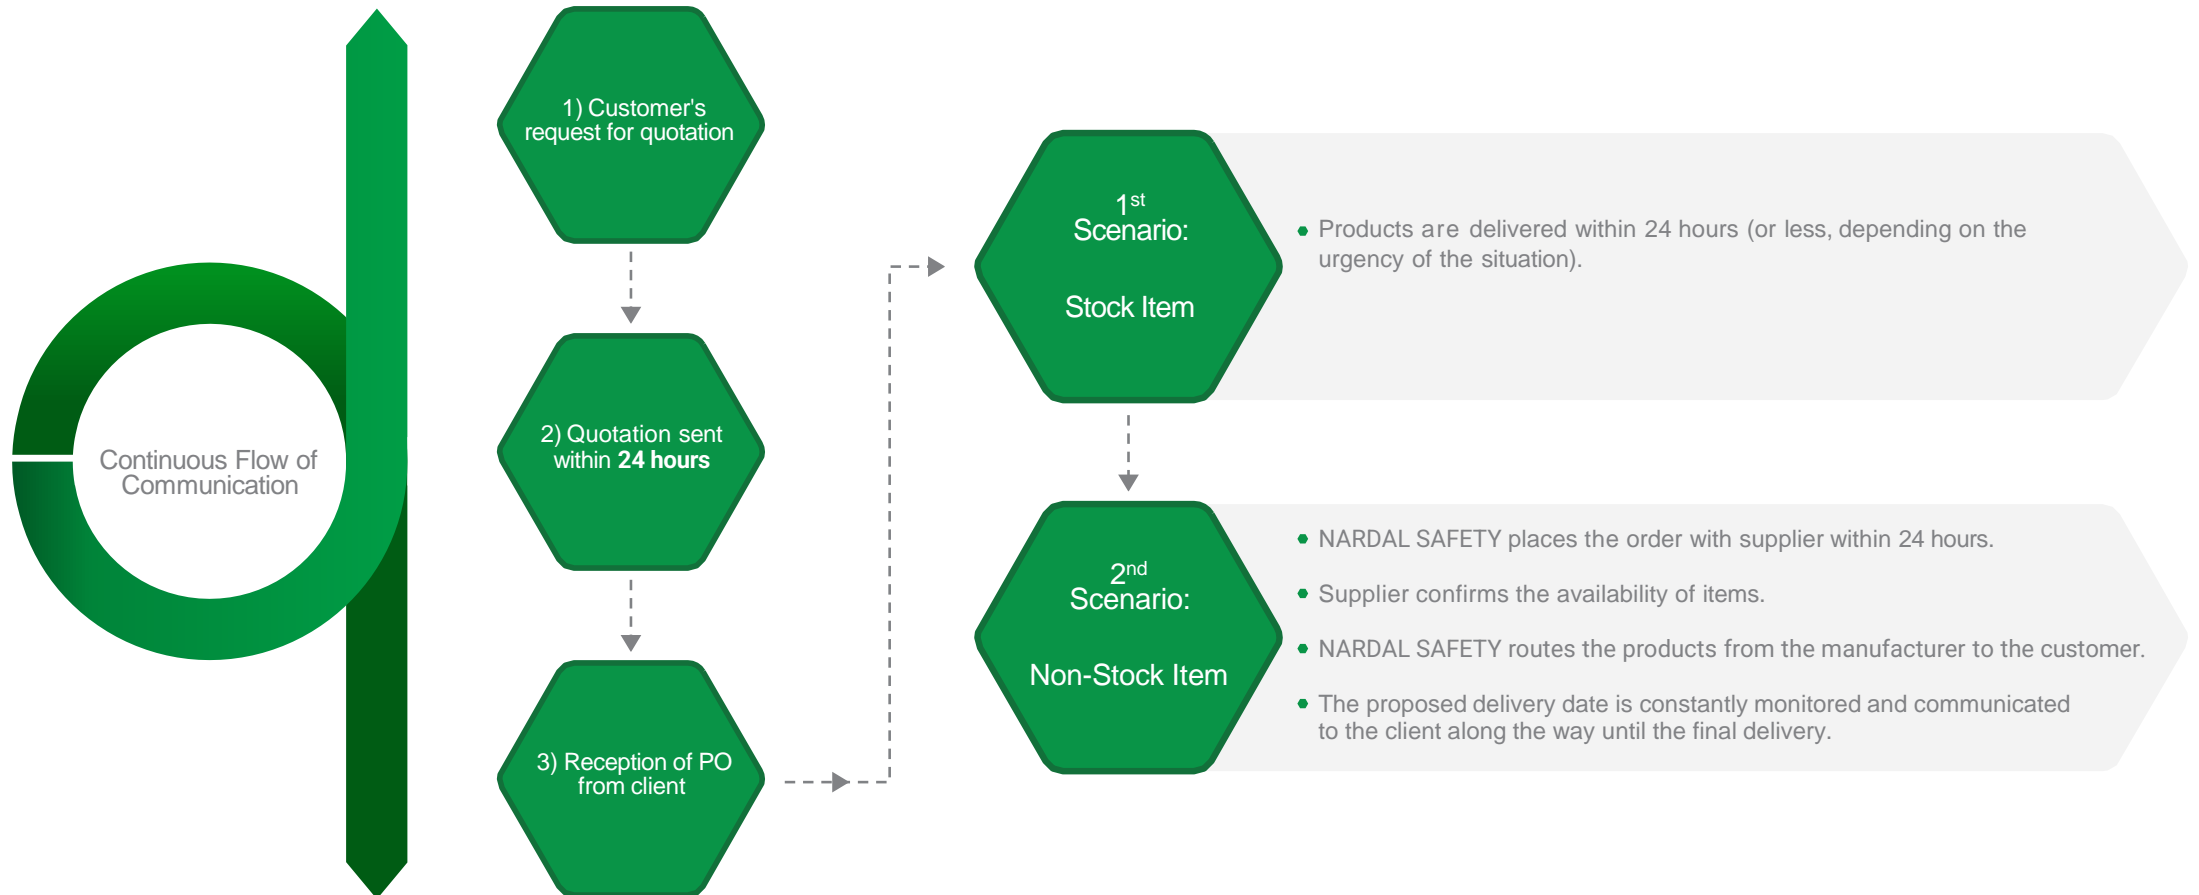

### Headlamps

At Petzl, we've been innovating hands-free lighting for over 50 years, providing our customers with headlamps that deliver the highest performance.

# ORDER LIFE CYCLE AND PROCESS

We ship across the Indian Ocean region and East Africa countries, with a promise to deliver products on time. Our services at NARDAL SAFETY are flexible and adaptable to meet the needs of all our clients, as we are aware that HSE equipment are crucial products.

# TECHNICAL SERVICE CENTER

We have qualified and certified technical staff who can perform maintenance and calibration on gas detectors and breathalyzers. We can also assist you with the maintenance and repair of TSI and Casella instruments.

- Training and support on all supplied products.
- Commission & installation of technical products.
- Performing calibration & maintenance of technical products (e.g., SCBA, gas detectors, breathalyzers, etc.).
- Door-to-door service delivery - we organise deliveries to all our clients across the region.

Our testing equipment enables us to provide appropriate service and maintenance.

Gas Detector Maintenance and Calibration
